Acute Toxicity: COMPONENT TOXICITY:
 Tetrasodium EDTA Crystals
 Eye Irritant - Category 2

 Citric Acid
 Eye Irritant - Category 2

 No other toxicity data is available.
 Chronic Toxicity: No data available.
 Reproductive Toxicity: COMPONENT TOXICITY:
 A human study of occupationally exposed Borate worker population showed no adverse reproductive

effects. Animal studies indicate that Boric Acid reduces or inhibits sperm production, causes testicular atrophy, and, when given to pregnant animals during gestation, may cause developmental changes. These feed studies were conducted under chronic exposure conditions leading to doses many times in excess of those that could occur through inhalation of dust in the occupational setting.

Carcinogenicity: No data available.

Mutagenicity: No data available.
